

HANZ URIEL D. RODIL

I.T INTERN

Lucena City, Quezon Province | hanzrodil01@gmail.com | +639974632979

EXPERIENCE

QA Lead Intern

- Developed and executed test cases, performed functional and regression testing, and tracked defects to ensure software quality.
- Analyzed test results and worked closely with developers to resolve issues and improve system stability.

Code Camp Instructor for Java

- Mentored students in a 3-week Java programming workshop, guiding them through core concepts and hands-on coding exercises.
- Supervised the development of a final project that integrated all lessons, fostering practical application and problem-solving skills

PROJECTS

TrackNix: A Desktop-Based Point-of-Sales Inventory System

- Developed a full-stack POS and inventory management system using C# (WinForms) and SQL, overseeing both application architecture and database design.
- Developed secured inventory tracking, and dynamic role-based access control to enhance operational efficiency and system integrity.

D.E.C.S – Decentralized Emergency Communication System

- Developed the backend for a mobile-based decentralized communication system, enabling devices to function as network nodes via hotspots during emergencies.
- Implemented data routing, message synchronization, and network reliability mechanisms to ensure uninterrupted communication without traditional internet access.

T.E.S.S (Time Efficient Study Solution) – Android Application

- Developed a productivity and note-taking Android application designed to enhance time management and study efficiency.
- Implemented task organization and structured note features to support effective planning and academic productivity.

EDUCATION

Bachelor of Science in Information Technology

2022-Present

STI College Lucena (Tertiary)

- Dean's Lister | 2022-2024
- 1st Runner-Up in Tagisan ng Talino: Code Fest | 2024
- Best Reservation System for 'ETHAKAI' in Integrative Programming | 2024
- Vice-President of Shiba Re-ignite Organization | 2025

Mobile App & Web Development (ICT)

2019-2022

STI College Lucena (Senior High)

- Academic Excellence Award with Honors | Batch 2022

TRAININGS AND SEMINARS

Skills to Succeed Academy: Technology at Work

Accenture - Certificate of achievement

- Learned and applied workplace technology tools, digital productivity practices, and practical tech solutions for professional environments.

SAP4/HANA training course for Global Bikes inc.

STI College Lucena - Certificate of Participation

- Gained hands-on experience in SAP S/4HANA, learning system navigation, enterprise resource planning processes, and business workflow management for Global Bikes Inc.

Linux Professional Institute's System Administration Program

STI College Lucena - Satisfactory Completion of Course Work

- Learned and applied Linux system administration skills, covering server management, networking, security, and system troubleshooting.

Oracle Academy's Java Fundamental Course Work.

STI College Lucena - Satisfactory Completion of Course Work

- Completed coursework in Java fundamentals, covering core programming concepts, object-oriented design, and basic application development.

SKILLS

- **Software Testing & QA:** Test case design, bug tracking, QA processes, functional and regression testing
- **Database:** SQL, Database design & management
- **Programming Languages:** Java, Kotlin, C#, HTML, CSS, Flutter, Python
- **Web & Desktop Development:** WinForms (C#), Android Development (Java/Kotlin)
- **Video & Image Editing:** Experienced in the use of editing tools like adobe softwares.

ADDITIONAL INFORMATION

- **Languages:** English, Tagalog
